

Dental Clinic

Located at 21 South Main Street.

Provides urgent and complete dental care for children and adults. NC Medicaid, Health Choice, and self-pay accepted.

Services include cleanings, exams, radiographs, fluorides, sealants, fillings, extractions, minor surgical procedures, limited endodontic, and limited prosthodontic procedures.

Peer Support Specialist Services

Will help Graham County citizens who are in recovery to remove the barriers they face that keep them from being employed, and then assist them in gaining employment with the help of a Certified Peer Support Specialist who will continue to work with them to help sustain employment and work through other social (transportation, housing, etc.) and health barriers during their recovery.

Environmental Health

- Inspections: Restaurants, Hotels/Motels, Swimming Pools, Schools, Daycares, Group Homes/Institutions
- Water Sampling: Recommended to have private water supply checked annually
- Rabies Control
- Septic Permits and Inspections
- Well Permits and Inspections

Community Care Program

The community Care program expands the reach of the primary care services using an EMT/paramedic to go into homes to provide services and procedures such as: vitals sign monitoring, glucose levels, medication compliance and reconciliation, fall risk assessments, and referral assistance to other medical and social services.

VISION STATEMENT: To be recognized leaders in public health, increasing equity and efficiency, to build a healthy future for ALL people.

Family Planning

Appointments are available for men and women of reproductive age to receive physical exams, family planning counseling, lab tests, and birth control methods. Fees are based on family size and income. Medicaid and some insurances accepted.

STD Clinic/Communicable Disease

Offers screening for diagnosis and prevention of various sexually transmitted diseases, counseling, and follow-up assistance. **FREE** confidential HIV testing available.

Adult Health

Complete physical exams for men and women ages 21 to 64.

Walk-In Clinic

Provides blood pressure readings, full laboratory testing, and urinalysis. Drug testing also available. No appointments necessary.

Breast & Cervical Cancer Control

Program Visits

Physical exams including appropriate pap smears and mammograms for women age 40 to 64 that have no insurance and are income eligible.

CAP DA, CAP Choice, Money Follows the Person

These programs provide an option to nursing home placement for elderly or disabled adults who wish to remain in their home. For Medicaid eligible individuals.

Immunizations

Offered for all ages daily, no appointment needed. We follow the Advisory Committee on Immunization Practices to recommend and give vaccines.

WIC Program

Supplemental Nutrition Program for **Women, Infants, and Children**. Serves eligible pregnant, breastfeeding, and non-breastfeeding postpartum women, infants, and children up to age five. WIC is an equal opportunity program.

Breastfeeding Support

Provides breastfeeding women, and those desiring to breastfeed, with classes, books, breast pumps, instruction, and support.

Tuberculosis Control/Medical Services

The goal of the NC TB Program is to eliminate TB disease as a public health threat by reducing the number of TB cases and by controlling the spread of TB into the community.

Car Seat Safety

Provides a certified Child Passenger Safety Technician to teach how to install and remove infant and child car seats, per NC Child Restraint and Seat Belt laws.

Community Preparedness

Plans and coordinates working with the community for preparation of a possible disaster in our area.
